Demosan Application Levels

- ■ 21.23-31.85 lb ai/acre/year for ornamental woody plants, lawns, and turf
- ■ Major River Areas
- — SJRWMD Boundary
- ■ Florida County Lines

Note: Application amounts are based upon the maximum allowed per year by the pesticide label. Where a yearly maximum was not available, three times the maximum individual application was used. To calculate lb ai/acre for liquid pesticide products, it was assumed that one pint equaled one pound.
